

**Eldorado Gold Corporation  
Kisladag Gold Project  
Turkey**

Merit is the Construction Manager of this 5.0 Mtpa gold heap leach project located in Usak, Turkey, with a CAPEX of US \$83 million. The project comprises a 3-stage crushing facility, overland conveyor, heap leach pads, a carbon adsorption facility, (ADR) plant and refinery.

**Plant Site Area**

The work includes new access, powerline and a 13 Km waterline as well as all ancillary facilities. Work on site started in the first quarter of 2005 and is scheduled for completion in the first quarter of 2006.

**Leach Pad Area**

**Lisbon Valley Mining Co. LLC  
Lisbon Valley Project  
Moab, Utah**

Merit is the Project and Construction Manager for this 27,000 tpa copper cathode leach SX-EW plant. It combines the structures, mechanical, piping and electrical facilities dismantled from the Tonopah plant in Nevada, relocated to Lisbon Valley, close to Moab, Utah.

The facilities includes two stage crushing, tank farm, SX, EW as well as a 10 mile long new powerline, water collection system, and leach pads and ponds.

Work commenced in the last quarter of 2004 and is scheduled to be completed during the last quarter of 2005 at a CAPEX of \$56 Million.

**Leach Pad Liner**

**Secondary Crushers**

**Goldcorp Inc.  
Red Lake Mine  
McEwen Shaft Expansion & Mill Expansion Projects  
Balmertown, Ontario**

Merit is the Project and Construction Manager of the McEwen Shaft which is now almost 50% sunk to a level of 7,200ft. Scope included the P&CM of all surface and underground facilities, new powerline, access and water supply. Merit performs, purchasing of all permanent equipment and materials, scheduling, cost reporting, contract administration and engineering coordination.

Merit is also the Project and Construction Manager for the existing mill expansion to 1000 - 1200 tpd and will be responsible for coordinating with the engineer, contracts, procurement and costs.

McEwen Shaft Headframe

**Corriente Resources Inc.  
Mirador & Sabanilla Projects  
Ecuador**

Merit acted as coordinator for Corriente Resources' recently published bankable feasibility study for the 25,000 tpd Mirador Copper Project located in southwest Ecuador in the Amazon rain forest. Merit provided the CAPEX, schedule and infrastructure studies for the feasibility as well as coordinating the engineering, technical and logistics inputs. Merit is providing construction management services for the preliminary Mirador site development activities and is providing project management services for the 30 MW run-of-river Sabanilla Power Project which will provide the power for the Mirador mine and concentrator.

Sabanilla Power Project

**Placer Dome Technical Services Ltd.  
Pueblo Viejo Project  
Dominican Republic**

Merit completed a report for PDTs on the CAPEX, scheduling and project implementation for the project.

**Quadra Mining Ltd.  
Robinson Moly Flotation Project  
Ruth, Nevada**

Merit is the Construction Manager of the Robinson Moly Flotation Plant as an expansion to the existing mill. Merit is providing on site services with home office support as well as coordinating with the engineer, running the costs and schedule and performing all contract administration.
